DETAILED ACTION

Allowable Subject Matter

Claims 1, 4, 6, 9, 12, 14, and 18-27 are allowed.

The following is the examiner's statement of the reasons for allowance. The amended claims feature the specific act of a peer broadcasting a task request over the network, where the system returns a URL corresponding to an upload directory for a service server, where the server uploads files from the upload directory to a backend server. The URL is then used to cause the service server to perform the task, which is an uploading task, including forwarding an identified file to be uploaded to the backend server. Also, the digital signature of receipt packets received from the service server is verified to ensure that the receipt packets are from the backend server, where the receipt packet must arrive within a predetermined period of time, which is dependent on how often the service server performs uploads, file size, and transmission speed. If the verification of the receipt packets fails, or if the receipt packets do not arrive on time, the service server is placed on a blacklist. After the receipt packets are received, a message is broadcasted indicating that the service server has been located by the peer. In view of the inclusion of the narrowly claimed features, specifically the reception of signed receipt packets in response to a task requests, placing the offending servers on a blacklist if verification fails, and the announcement messages broadcasted throughout the network, it is believed that the claimed invention is novel. The examiner was unable to procure prior teachings of such features as claimed, and could not render said features obvious to one of ordinary skill in the art, without the

Art Unit: 2145

use of impermissible hindsight constructions. It is therefore the examiner's belief that the claimed invention does indeed possess novelty.

Any comments considered necessary by the applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
